

BOARDROOMS & VIDEO CONFERENCING:

With companies having to be up to date with technology and the digital age, no professional environment can exclude a high quality boardroom and videoconferencing system; that has been custom designed and fitted to achieve all expectations through optimal communication systems.

Audio Visual Lifestyle Solutions have been instrumental in the design and supply of audio visual products for seamless switchable functionality around boardroom tables with multiple users. We are also proud to ensure a full installation of not only installation but supply of all products required for your Hi Tech environment.

Audio-visual Lifestyle solutions utilise and are not limited to:

- Kramer
- Matrix switches
- And many more great brands.

All boardrooms and videoconferencing are equipped with ADSL and ISDN lines, so as to ensure efficient online connections and communication.

For more information with regards to a full board room and videoconferencing facility installation, do not hesitate to contact us today to schedule an initial meeting, so as to customise your efficient business communication solution.

Services to create efficient business communication solutions:

- Lighting automation (At the touch of a button lighting dims, projector screen comes down, and projector switches on)
- Motorised & pull down projector screens. (Supply and install)
- Projectors (Supply and install of various brands)

- Sound (So that music dims when talking into microphone, or surround sound facilities, lots more features)
- Fully customised service, where all of the above can be controlled by one remote and the touch of a button.

Some clients who have utilised this service:

Merchants and I-Net – Part of the
Walmart group.
