

HOME AUTOMATION:

Home automation, the popular choice of having a home that thinks for itself. A home that can be entirely controlled via a remote; and can be customised to perform tasks on a large or small scale.

Audio Visual Lifestyle Solutions utilises a high end system, and has been successfully adopted in the South African market. The service of the sale and installation of the home automation system includes and is not limited to:

Philips Dynalite:

- Motorised curtains.
 - Energy saving lighting control.
 - Ipad control.
 - Daylight censoring.
 - Multiple LED colour changing control.
- ...essentially a “smart” home system installation.
- Telephone data
 - Wireless/ WIFI distribution.
